

Center for Computational Biology & Bioinformatics
2007 September-December Seminar Series Schedule
Monday's from 12:00-1:00

<i>Month/Day</i>	<i>Speaker</i>	<i>Title</i>	<i>Location/Time</i>	<i>Host</i>
September				
10	No Speaker Scheduled		Health Information and Translational Sciences (HITS) Room 1110 - 12:00-1:00	
17	No Speaker Scheduled		Health Information and Translational Sciences (HITS) Room 1110 - 12:00-1:00	
24	Jose' Onuchic Professor and Co-Director for the Center for Theoretical Biological Physics and Department of Physics, University of California at San Diego	"The energy landscape for folding and function"	Health Information and Translational Sciences (HITS) Room 1110 - 12:00-1:00	<i>Zhou</i>
October				
1	Jiali Gao, Barcelona Supercomputing Center & Institut de Recerca Biomedica	"Dynamic Contributions to the Free Energy Barrier of an Enzymatic Reaction"	Health Information and Translational Sciences (HITS) Room 1110 - 12:00-1:00	<i>Zhou</i>
8	No Speaker Scheduled		Health Information and Translational Sciences (HITS) Room 1110 - 12:00-1:00	
15	No Speaker Scheduled		Health Information and Translational Sciences (HITS) Room 1110 - 12:00-1:00	
22	Olga Vitek, Assistant Professor, Department of Statistics, Purdue University	"Discovery of biomarkers of disease in a combined LC-MS and LC-MS/MS proteomics workflow"	Health Information and Translational Sciences (HITS) Room 1110 - 12:00-1:00	<i>Mooney</i>
29	Professor Charles L. Brooks, III Department of Molecular Biology, The Scripps Research Institute	"Viral Capsid Dynamics: From Maturation to Assembly"	Health Information and Translational Sciences (HITS) Room 1110 - 12:00-1:01	<i>Zhou</i>
November				
5	Pauline Ng, Senior Scientist, The Center for the Advancement of Genomics, J. Craig Venter Institute	"Gene variation for human health"	Health Information and Translational Sciences (HITS) Room 1110 - 12:00-1:00	<i>Mooney</i>
12	Jeffry Madura, Professor and Chair of Duquesne University Department of Chemistry and Biochemistry	"Biomolecular Simulations of Proteins and Transporters"	Health Information and Translational Sciences (HITS) Room 1110 - 12:00-1:00	<i>Meroueh</i>
19	Cheryl Arrowsmith, Chief Scientist Structural Genomics Consortium University of Toronto	"Protein structure and disorder in the p53 and BRCA1 signaling networks"	Health Information and Translational Sciences (HITS) Room 1110 - 12:00-1:00	<i>Dunker</i>
26	No Speaker Scheduled		Health Information and Translational Sciences (HITS) Room 1110 - 12:00-1:00	
December				
10	Dr. Yawen Bai, National Institute of Health	TBA	Health Information and Translational Sciences (HITS) Room 1110 - 12:00-1:00	<i>Zhou</i>

* If you are interested in giving a CCBB seminar please contact Derrin Phoenix at dphoenix@iupui.edu

* All seminars can be viewed at <http://medaudio.medicine.iu.edu/iusm>
